

Baktolan[®] bath & shower oil

Cleansing and care of skin and body

Replenishing bath additive and shower oil for the gentle cleansing and intensive care of dry and sensitive skin.

Baktolan® bath & shower oil

Product properties

- contains premium, natural care substances
- a special buffer system stabilises the protective acid mantle
- alkali and soap-free
- free of colourants and preservatives

Composition

Glycine Soja, MIPA Laureth Sulfate, Laureth-4, Ricinus Communis, Cocamide DEA, Poloxamer 101, Perfume (Fragrance), Panthenol, Bisabolol, Lanolin Alcohol, BHT, Citric Acid, Diammonium Citrate, Aqua, Propyl Gallate.

Areas of application

Suitable for the daily use as shower oil or as bath additive. Especially for highly stressed, dry, sensitive or itching skin, or for skin that tends to inflame. Particularly suitable for the supportive care of aging skin and eczematous skin diseases.

Directions for use

In the shower, apply Baktolan® bath & shower oil undiluted to the wet skin, rub and allow it to act. Afterwards, shortly rinse skin and dab dry with towel. For a full bath (approx. 150 l), pour 25-30 ml Baktolan® bath & shower oil into the bath water and mix well. Do not use additional bath additives or soaps in order not to neutralise the oil bath's effect. The water temperature should be between 32-37 °C. In order to maintain the fine oil film, only dab skin dry with a towel after bathing.

Characteristics

Baktolan® bath & shower oil contains an ultra mild and replenishing cleansing complex and consists to more than 50 % of moisturising oils like soybean oil.

Additives such as Panthenol, Bisabol and Eucerit®* support the skin's smoothing, moisture maintenance and soothing.

In addition, the replenishing properties can relieve itching.

* Eucerit® is a trademark of Beiersdorf AG

Stability (optionally)

Unopened:	30 months
After opening:	12 months

100 millilitre tottle, 350 millilitre bottle.

BODE Wall-mounted Rack for 350 ml BODE bottles.

The recommendations regarding our preparations are based on scientific tests and are given in good faith. More detailed recommendations, e.g. regarding material compatibility, are only possible in particular cases. Our recommendations are without obligation and do not constitute a warranty. They do not preclude a company's own testing for the intended purposes and processes. In this respect we cannot accept any liability. This complies with our general conditions of sale and supply.

Important tip: Oil baths and shower oils do not only leave an oil film on the skin, but also in the tub which harbours the increased risk of slipping. Therefore, the tub should be cleaned with a common cleanser and rinsed with hot water after each bath or shower.
